

# Monwell Partee

UI/UX & Visual Designer

Charlotte, NC

## Experience

### Lowe's

UI/UX Designer | Aug 2019 - Present

Remote

- Builds and delivers consistent high-quality design artifacts including wireframes, concept sketches, pixel-perfect design comps, presentations, and documentation
- Works on self-development to ensure relevance in an evolving digital landscape
- Advocates for usability and interface design
- Works with a team of Architects, Designers, Prototypers, and Content Developers to deliver projects in a timely and efficient manner
- Supports the tactical direction and holistic design work output and deliverables associated with assigned projects
- Evaluates existing web applications and their usability

### Hyperloop Transportation Technologies

UI/UX Designer | Aug 2013 - 2019

Remote

- Worked closely with the CEO to design Hyperloop's official website and teams application.
- Worked fast in low fidelity to discover potential options, then determined trade-offs between choices while iterating into high-fidelity deliverables.
- Designed user interface elements. Produce high-quality creative solutions to complex problems based on research and goals.
- Created detailed visual designs, prototypes, and reusable elements for user interfaces.
- Worked at both a detailed level and a strategic level.

### Freelance

UI/UX Designer | Jul 2012 - Aug 2019

Remote

- Designed high fidelity mockups for mobile and web user interfaces
- Delivered assets and style guides for development
- Revised work of interactive designers and motivate them to perform better.
- Worked with engineering/QA teams to control the quality of the actual designs implementation
- Evaluated existing web application and evaluated their usability
